MATIAS ACOSTA - Software Engineer

Phone: +(54) 3794267995 **Email**: matiaseacosta18@gmail.com

Github: https://github.com/MatuAcosta **Portfolio**: https://matiasacosta.dev/

Software engineer with over 2 years of experience in developing various web applications and other systems. I have a strong ability in troubleshooting and problem-solving related to software solutions and have effectively worked in both small and large teams across multiple projects.

WORK EXPERIENCE

Full Stack Developer at Banco de Corrientes SA - Corrientes, Argentina

May 2022 - Present.

Responsibilities

- Developed and Mantained Web Application using Angular and Nodejs.
- Implementing new features and enhancements based on user feedback and business requirements.
- Developed a Node.js application using RabbitMQ as a queuing system for asynchronous information processing.

Accomplishments

- Deployed a web homebanking app with more than 15,000 users.
- Contributed to the development of various banking projects, enhancing system efficiency and user experience.

EDUCATION

Systems Information Engineering at Universidad Tecnológica Nacional - Resistencia, Argentina

2019 - 2024

I have been part in some academic **projects** while studying:

- **Twist - Course: Final Project**
  - Built a dating app with React Native + Expo, NestJS and Spring Boot.
- **Fantur - Course: Client-Server Application Development**
  - Built a RESTful API to manage travel packages for the FIFA World Cup in Qatar 2022 with Java and Spring.

SKILLS

- Nodejs
- Nestjs
- Angular
- React
- React Native
- Git, Github
- Docker

- RabbitMQ
- Tailwind CSS
- CSS
- SQL
- NoSQL
